

Short pathways, locations for discussion and retreat – paravento hub

paravento hub divides spaces and creates opportunities for retreat within the office landscape. paravento hub offers all applications with a single system: Wardrobe, locker, service point or retreat and meeting opportunities in the smallest space.

The **paravento hub cube** serves as a retreat or meeting spot in even the smallest space. The 60 cm-deep module is equipped with docks elements, a sitting height of 45 cm and room to accommodate four people. Upon request, a table, power and data connection can be integrated into the cube. Depending on the degree of shielding, the cube can be implemented with an open or closed side. An integrated screen completes the short meeting possibilities
