

Foscarini

Established in 1981 on the Venetian island of Murano, today Foscarini is known all over the world for successfully bringing together the work of international designers and local craftspeople. The company designs, develops and produces lights that are in continuous dialogue with their environment and the beholder. Characteristic of Foscarini is the consistent and passionate design-oriented approach.

Twiggy

A light which adapts effortlessly to different requirements of interior design and lighting: with its fine, dynamic line, Twiggy is not only distinctive but offers impressive functionality. Adjustment of the stem length and therefore the height of the diffuser makes Twiggy suitable for a variety of contexts – from smaller spaces at the lowest setting, to large public spaces at the highest setting. Twiggy goes particularly well with our product range ophelis docks.
