

Front running door cupboard system

Elegant character: Whether used as side furniture or as a wall cabinet, the **glider** sliding door cabinet system combines plenty of storage with a new design quality in the office. The doors, which run along multiple tracks in front of the body, feature a narrow handle strip made of aluminium, and create a cosy atmosphere. The acoustically effective version of glider also ensures an audibly pleasant indoor climate.

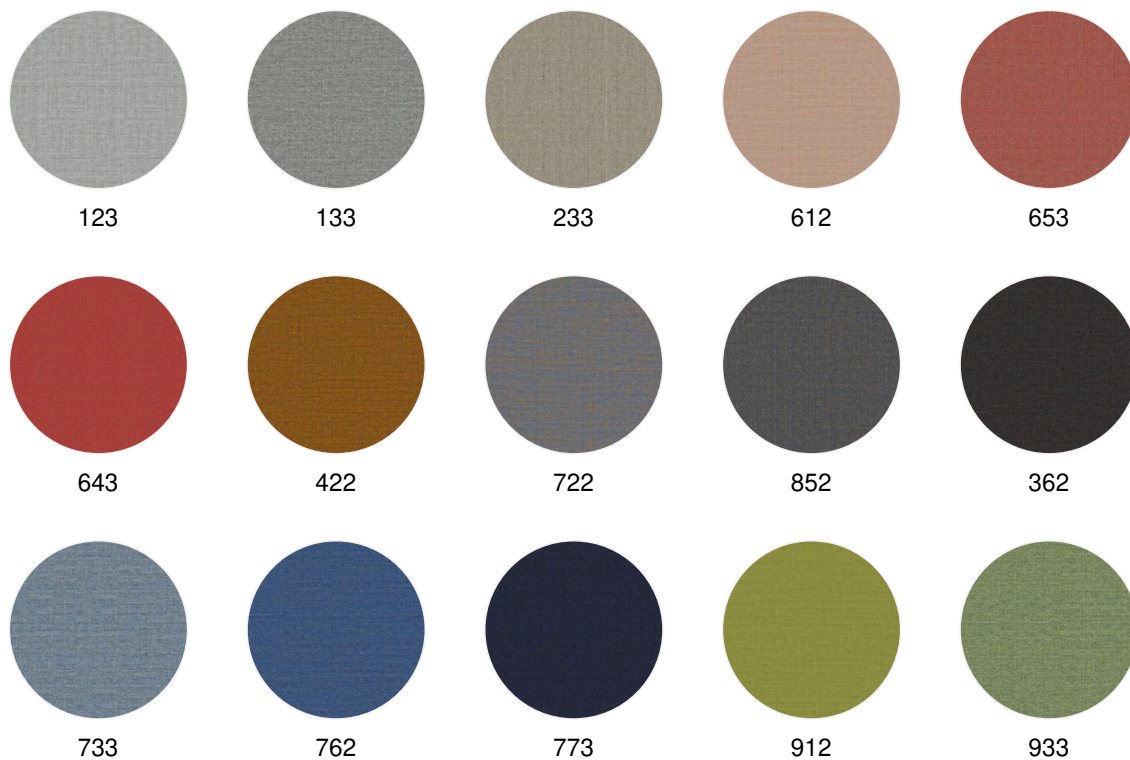

Custom configuration: glider combines the need for large amounts of storage space with the desire for an appealing visual appearance. The elegance of the cabinet system is underscored by filigree aluminium handles. glider can be configured with all standard equipment such as hanging file cabinets, wide wall drawers and wardrobes.

Product features

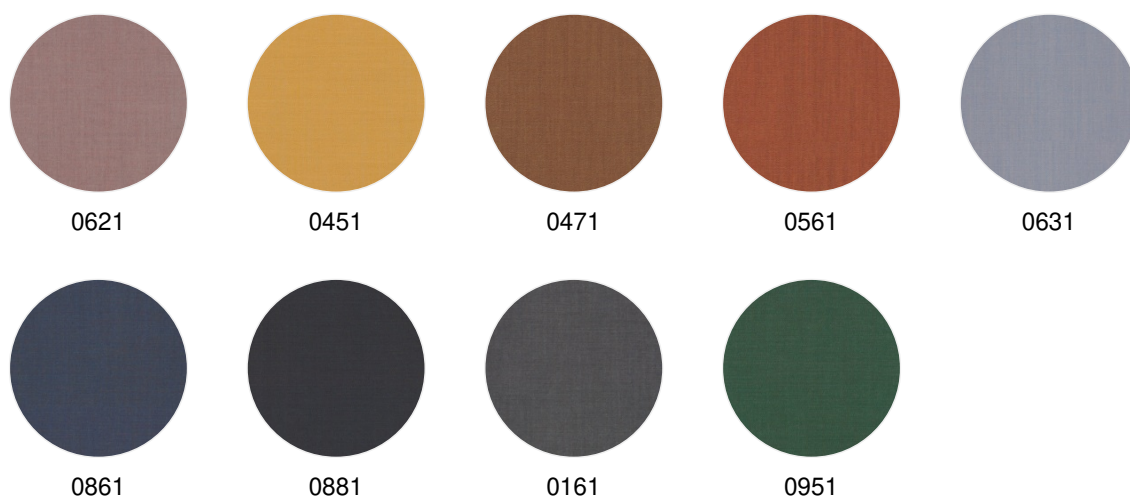

- End-to-end front running door cupboard system, from two to six file folder heights
- Extensive front facades for a quiet, cosy architectural appearance
- Multi-track doors (two, three or four doors) which run in front of the body
- 100 % access, with anti-trap protection
- End-to-end cabinet top panel with hover effect which covers the entire cabinet as well as the guidance technology; from 3200 mm (four doors) the top panel comes in two parts
- High level of spatial efficiency due to vertical cabinet opening
- Optional front facade available as whiteboard surface or as magnetic surface/board
- Acoustic fittings – acoustic front facade and acoustic fabric back panel
- Optional glider big screen: Integration of a flat screen in the middle section of the four-door cabinets
- Certificates
 - Quality Office
 - GS mark
 - Blue Angel UZ 38
