sum move

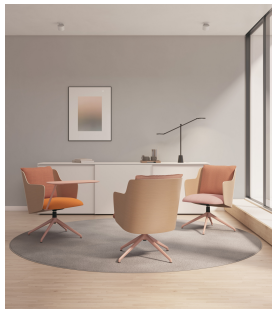

sum move

The office is increasingly becoming a place for learning, sharing and collaboration. Inspiration, wellbeing and stimulation are important factors in room design. As a compact piece of seating furniture, sum move creates connections and adds to different zones in the working environment.

sum move has been developed from the design idea of ophelis sum and yet is independent. The additive construction of seat element, backrest, cushion and Add-on table opens up many possibilities for

design and use. The backrest is made of moulded oak veneer, which can be lacquered in different colours. In combination with the cushion, the sum move armchair offers excellent seating comfort and invites you to linger.

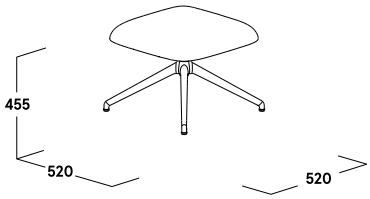

The ophelis textile collection -and choice of different colours for base and Add-on table provide **sum move** with a variety of design options.

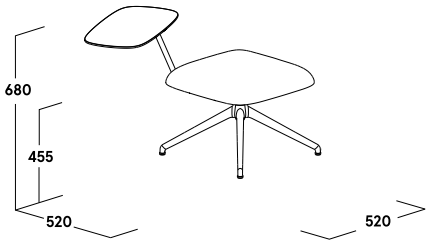

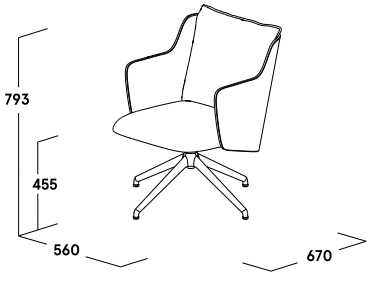

Product features

- **sum move** is available as a stool or armchair
- 4-legged frame on castors or glides
- with or without Add-on table
- different colours for base frames and Add-on table holders are available
- foot frame and table holder are identical in colour
- The back of the armchair is made of moulded oak veneer and can be painted in different colours
- The Add-on table can be chosen in the same colour as the backrest
- high seating comfort
- versatile use, whether as a seminar chair, for meeting situations or agile project work
- great design versatility thanks to a wide range of colours for all components – and the large ophelis textile collection
- cushions and upholstery differently selectable
