CN Series Sitting/standing table with organization rail

Product features

- Ergonomic work table due to electromotive height adjustment
- Organizable function rail for attaching swivel arms, lights or table top walls
- Convenient access to electrification thanks to sliding plate with continuous brush seal at rear edge of table
- Available in various widths (1600 to 2000 mm) and three depths (800, 900, 1000 mm) for individual adaptation to requirements
- Large stroke range: 650 – 1280 mm
- Lifting speed: 50 mm/sec
- Quiet operation: Noise level during operation < 42 dB
- Start-up behavior of the tables is very quiet and smooth
- Convenient cable management thanks to vertical and horizontal cable duct, cable outlets and CPU holder
- With premium collision protection
- Optional equipment memory control

Electrification

Electrification options

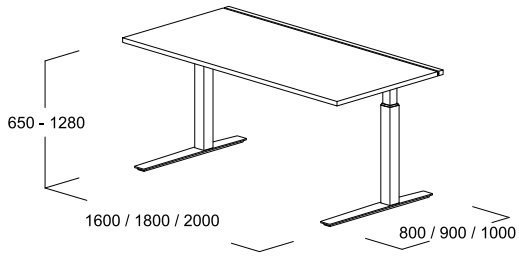

- Convenient electrification with organization rail at the rear end of the table top for tool-free mounting of additive elements over the entire width of the table while maintaining the sliding table top function and convenient access to the cable channel
- Smart cable management due to flexible cable chain or cable stocking to guide the cables up to standing height as well as steel

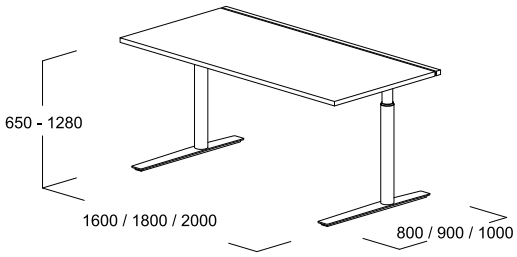

cable tray for invisible cable routing on the table leg; handling: easily removable without tools through clip fastening

- Netbox: Sockets are accessible to the user directly at the table – can be individually equipped with power and data sockets
