

M Series

Height-adjustable worktable featuring a special leg shape as a four-leg tubular frame with distinctive functional extensions. The extensions offer a variety of designs and provide additional leg room simply by turning the table leg outwards.

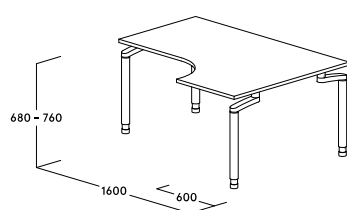

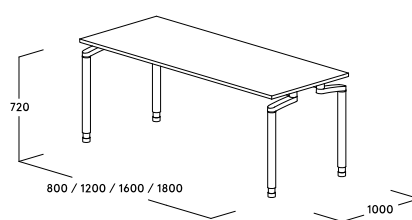

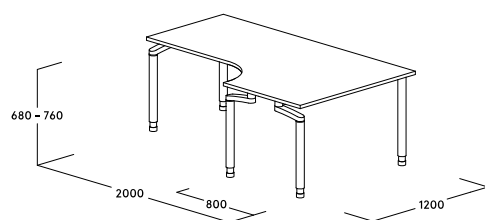

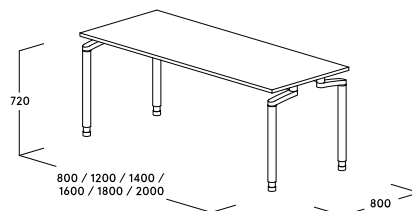

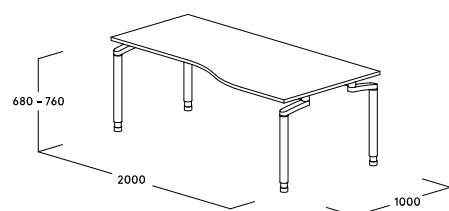

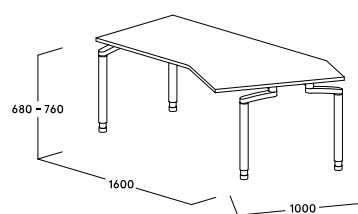

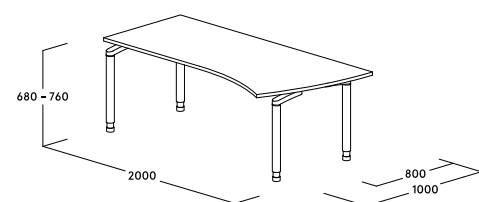

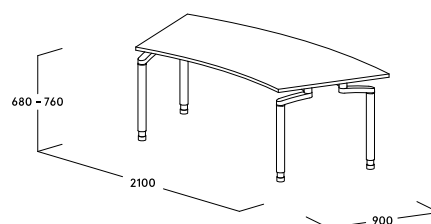

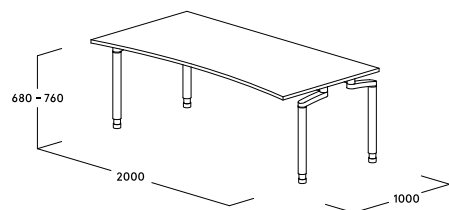

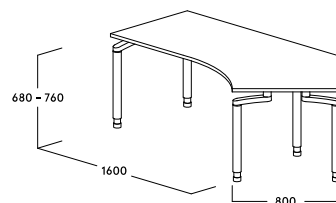

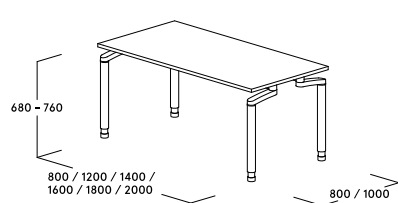

The **M Series**, with its many types of table top surfaces, bench solutions, conference and meeting tables and easily accessible organising elements, such as the technology sideboard, provide solutions for just about any requirement of the modern working environment.

Product features

- Four-leg tubular frame
- Functional extension can be swivelled 180° to the rear for optimum legroom
- Leg base with integrated linking slide for subsequent addition of a mounting plate frame
- The frame design enables colour combinations within the frame
