

Technology sideboard

The **technology sideboard** enables the discreet and convenient housing of IT and power outlets directly on the workstation. Ideal for management or consulting workstations that require direct access to a printer. The technology sideboard also offers a full-fledged container function and storage space for the most important documents.

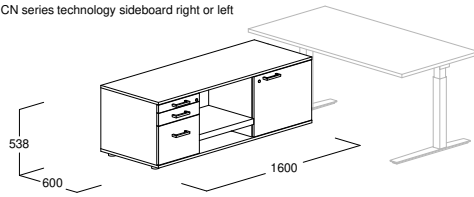

Product features

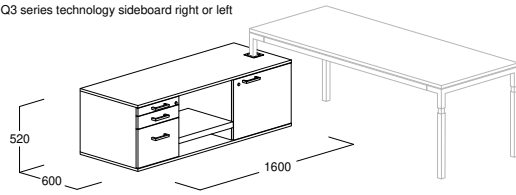

- Offers storage space, container function and integration of IT equipment such as CPU and printer
- The desk leg is inserted into the body, forming a harmonious unit consisting of worktable and storage space
- Pullout printer shelf
- Container function with various drawer dividers
- Compatible with many ophelis workstation systems
- With the CN Series, it can be aligned above the leg extension; for the Q3 Series, table leg is inserted into the sideboard
- Printer shelf, compartment with double door, container pullout furnished similarly to the Premium container
- Integrated ventilation of the electronic devices
