

Systeme d'armoire à façades coulissantes glider

Ce système élégant d'armoire à portes coulissantes offre, comme meuble d'appoint ou comme armoire murale, un vaste espace de rangement au design nouveau et de qualité. Les portes qui coulissent sur plusieurs pistes devant le corps du meuble avec une poignée fine en aluminium, créent une atmosphère chaleureuse. La version à absorption phonique assure par ailleurs un environnement acoustique agréable.

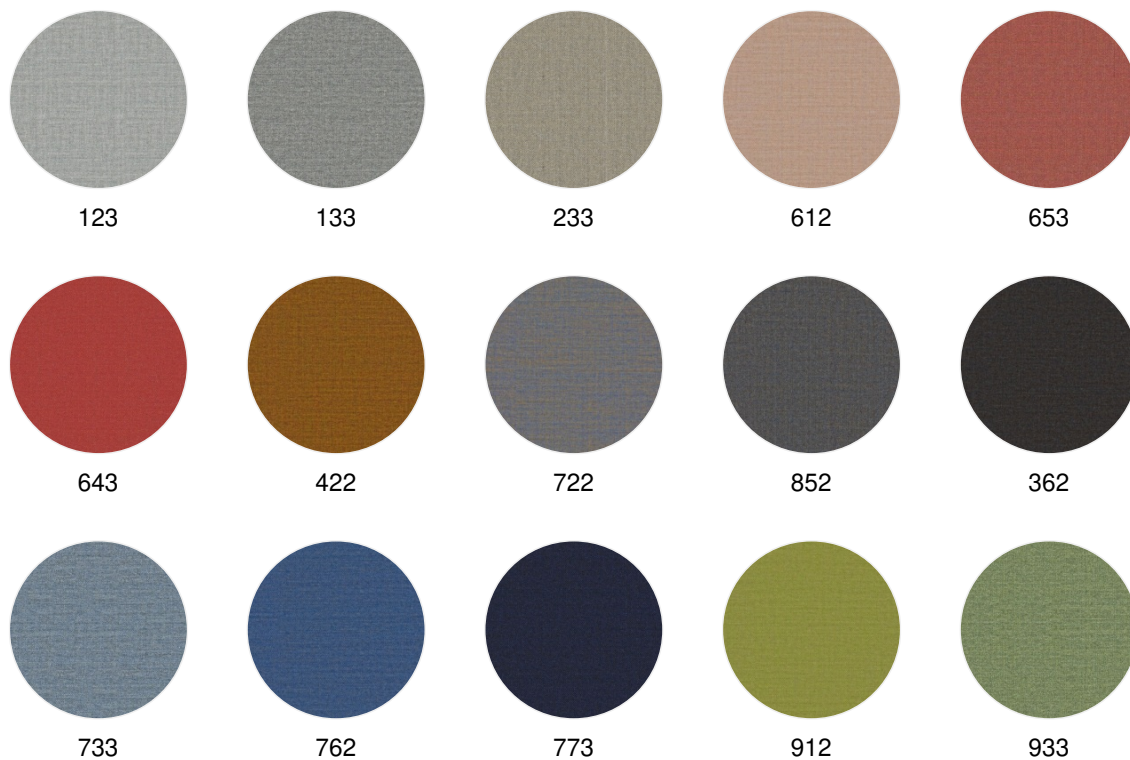

Configuration personnalisée : **glider** associe le besoin d'un vaste espace de rangement au désir d'un visuel apaisé. L'élégance du système est renforcée par des poignées filigranes en aluminium. Le système glider peut contenir tous les équipements intérieurs de série tels que des tiroirs pour dossiers suspendus, des tiroirs extra-larges et/ou des barres de penderie.

Caractéristiques du produit

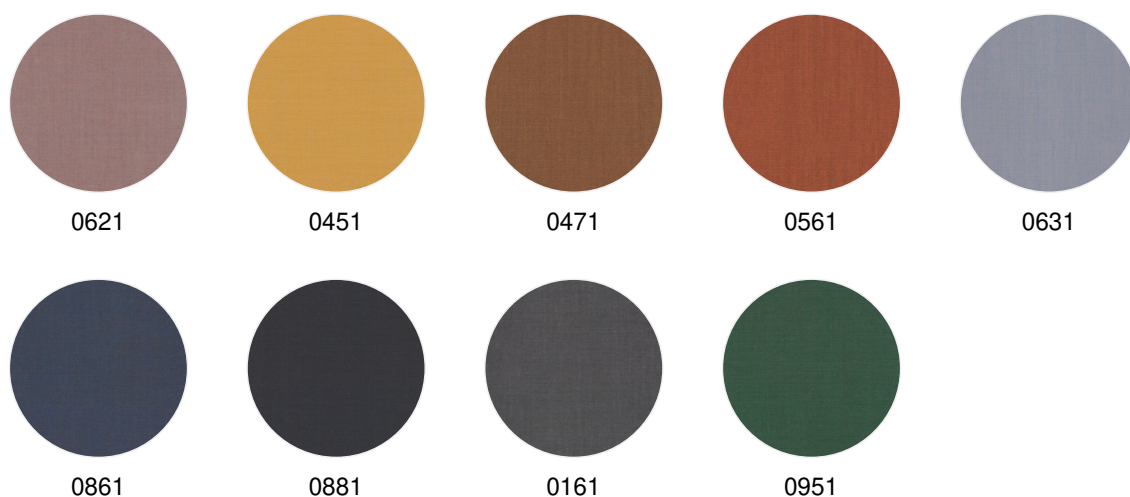

- Système continu d'armoires à façades coulissantes d'une hauteur de 2 à 6 hauteurs de classeur
- Les vastes façades créent une ambiance paisible et architectonique
- Les portes coulissent juste devant le corpus, le long des rails situé en haut et au niveau du sol (2, 3 ou 4 portes)
- Accès à 100 % de l'espace de rangement, protection anti-pincement
- Le dessus de l'armoire recouvre toute la technique de guidage et procure un style aérien ; à partir de 3200 mm (4 portes), le dessus d'armoire est divisé en deux parties.
- Utilisation efficace de l'espace grâce aux ouvertures verticales
- En option, les façades font office de tableau blanc et/ou surface magnétique
- En option : éléments avants à absorption phonique et/ou la face arrière revêtue d'un tissu à absorption phonique
- Option glider glider grand écran : l'intégration d'un écran plat au milieu d'une armoire à 4 portes
- Certificats
 - Quality Office
 - Sigle GS
 - Ange bleu UZ 38
