ophelis sum

ophelis sum est un système de meubles modulaire, idéal pour créer des îlots dans votre espace. ophelis sum a été créé à partir de 3 éléments : une base, un paravent et un coussin. Ils sont juxtaposables et modulaires. Les coloris disponibles pour la base et le large choix de textiles disponibles permettent de créer une infinité d’assises.

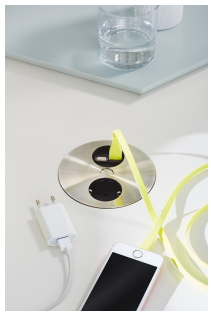

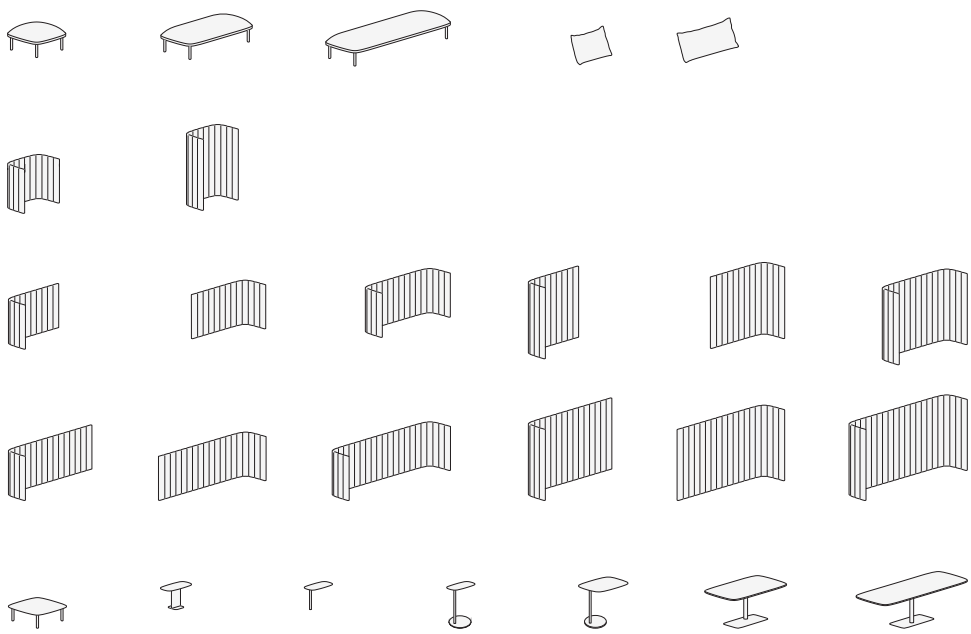

ophelis sum peut être disposé d’un seul côté, en face à face, en L, en T ou en X. En plus, on peut créer des cabines de différentes tailles. Ainsi, des espaces de communication plus ou moins ouverts, selon vos choix, permettent aux équipes et équipes-projets d’échanger de manière concentrée. Des tables add-on qui se fixent aux meubles ou que l’on place librement dans l’espace, complètent le système.

Caractéristiques du produit

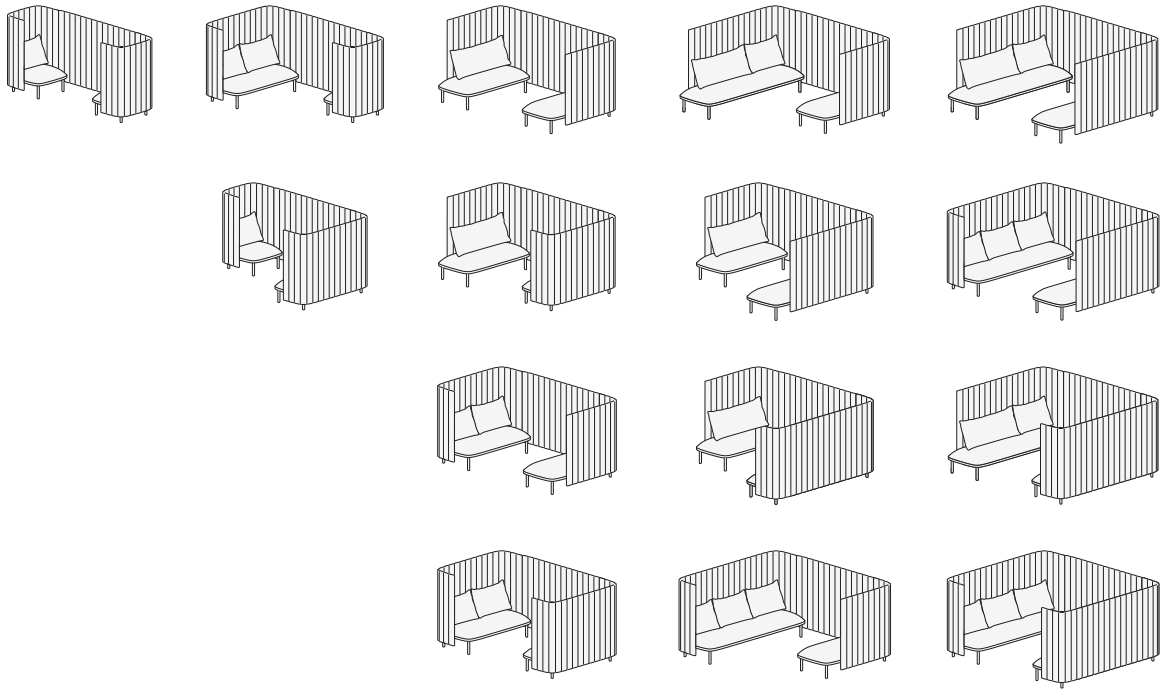

- Un système d’assises léger et flexible créant des îlots dans l’espace
- Un produit dont l’idée maîtresse sont les 3 éléments de base
- Une base, un paravent et un coussin
- Le design est clair modulaire et se combine à l’envie
- Une multitude d’assises et de configurations : tabourets, petits bancs, fauteuils ou canapés
- Les paravents sont disponibles en deux hauteurs afin d’offrir différents degrés d’intimité
- Les paravents en forme de L ou de U, offrent différents degrés de discrétion
- Différents types de table font office de liaison et/ou d’extension
- Électrification intégrée
- Infinité de combinaisons : 7 coloris pour la base et un large choix de textiles
- Le système permet une disposition d’un seul côté, en face à face, en L, en T ou en X
- Le spectre des utilisations possibles va de la création d’îlot au bureau à l’aménagement d’espace publics et/ou d’appartements privés
